

A heatmap visualization showing a vertical column of high values. The background is a light blue color, indicating lower values. A prominent vertical band of higher values runs down the center of the image. This band is composed of several distinct horizontal layers, each with a slightly different shade of blue, ranging from medium blue to dark blue. The highest intensity in this band occurs near the bottom, where it reaches a dark teal color. The overall shape is a tall, narrow rectangle centered vertically.
